MEDIA STATEMENT

URGENT

Rand Water and Municipalities urge consumers to use water sparingly

Persistent high temperatures in Rand Water's area of supply continue to strain its bulk water supply system.

The lack of rainfall in Gauteng is exacerbating the situation.

The high water demand will cause localised problems in the City of Johannesburg, City of Tshwane and the Ekurhuleni Metropolitan Municipality.

All consumers **must** use water responsibly and sparingly.

Advice on how to save water is available on the Water Wise link on Rand Water's website – www.randwater.co.za.
