Rand Water and Trade Unions conclude salary negotiations

Rand Water and its employee-affiliated trade unions have successfully concluded the 2015/16 wage negotiation process.

The negotiation process was robust and dynamic; however the process was concluded in good faith.

Throughout the process Rand Water continued to provide high quality potable water to all its customers.

On behalf of the Board and Executive Management, the Chief Executive of Rand Water would like to thank all the stakeholders for a resolution that enables Rand Water to continue to pursue its mandate of bulk water services provision.
