RE: War on Leaks PHASE 1 Job Placements 2016

Dear WOL Trainees

We are aware that the placement of all Phase 1 trainees has been a challenge that has resulted in justified frustrations amongst you all. We remain sincerely apologetic about the prolonged delay in finalising work placements.

Rand Water takes ownership in ensuring that this challenge is resolved – continuous engagements with key stakeholders and institutions regarding placements have and will continue to take place.

We understand your frustrations and anger in this regard and humbly request that you bear with us in finalising the matter. We thank you for your patience during this challenging time and again apologise for the inconvenience caused.

We give you the assurance that you will all be placed by 15 December 2016.

Warm regards,

WOL Management Team
