WAR ON LEAKS UPDATE

Dear WOL Trainees,

We are aware of a number of you that have completed your work skills placement training but have not applied for your trade test due to the lack of completing your N2 related course to qualify to apply for trade testing.

Please note that confirmation has been received that the required N2 qualification is no longer required for the War on Leaks Trainees who have successfully completed their work skills placement training. This requirement was waived by the National Artisan Moderation Board (NAMB).

To this end, you are urgently required to contact your training centre and apply for trade testing. This needs to be concluded by 10 April 2021. In the event that you do not apply and supply proof of application for trade testing, to the WOL service desk, you will be terminated from the War on Leaks Programme.

Trainees are kindly requested to contact the WOL Service Desk as it is the single point of contact with regards to communication on the War on Leaks Programme.

We will endeavour to keep trainees informed of any updated information.

We thank you for your understanding on this matter.

Regards,

WOL Management
