

WEBPAGE NOTICE

8 June 2020

WAR ON LEAKS UPDATE

Dear WOL Trainees,

We are aware of the delay in the distribution of WCWDM and Water Agents certificates that was planned before the COVID 19 lockdown. However, we have resuscitated the distribution of certificates nationally and it will be received in due course. Every province will receive a communication confirming scheduled, date time and place. All Artisan certificates will be sent to the training centre for collection and the trainees will be notified accordingly.

Non-payment of stipends for all unverified trainees will continue until proof of your present training status is submitted. You are urged to forward your documentation via email to the WOL Service Desk.

Please be reminded that the call centre is available on the cell numbers 082 304 7526 and 063 505 4490 for the duration of the lock down and your verified documents must please be sent to email address WOLservicedesk@randwater.co.za and copy the Chief Director Ndileka Mohapi, Water Ecosystems, Department of Water and Sanitation on email address MohapiN@dws.gov.za.

Trainees are kindly requested to contact the WOL Service Desk and not the DWS Contact Centre, as the WOL Service Desk is the single point of contact with regards to communication on the War on Leaks Programme.

We will endeavour to keep trainees informed of any updated information.

We thank you for your understanding on this matter.

Regards,

WOL Management
