Dash is a Civil Engineer that has extensive experience as a sustainability consultant within the built environment. This experience has involved over 10 years of Green Building certification work where he was able to guide over 28 projects to Green Star ratings covering 4, 5 and 6 Star buildings. This covered both certification modelling (thermal comfort, daylight & energy) as well as green building consulting.

He has been involved with the Green Building Council as a faculty member and assessor since 2014. He joined the GBCSA team in September 2022 as part of the technical department. His role as technical manager involves technical oversight of New Build related items including the delivery of the Green Star New Build V2 tool.
