**12 June 2024**

## **MEDIA STATEMENT**

### **RAND WATER EMBARKS ON PROACTIVE EXTENSIVE MAINTENANCE DURING WINTER MONTHS TO IMPROVE RELIABILITY AND EFFICIENCY OF ITS WATER INFRASTRUCTURE**

Rand Water will be embarking on an extensive proactive maintenance of its infrastructure from 22 June to 29 July 2024. **It is important to note that the maintenance project will be implemented on different dates in different municipalities.**

On 22 June 2024, the project will commence in Mogale City Local Municipality and pumping will not be affected as only one meter will be impacted. The implementation of the project will continue on 24<sup>th</sup> June 2024 and will affect areas supplied by Johannesburg Water and the City of Ekurhuleni.

Rand Water has requested the municipal customers that may be impacted by the maintenance project to advise their customers on the extent and the impact of water supply in their respective areas.

Rand Water will provide updates throughout the maintenance period.
