## MEDIA STATEMENT

### POWER FAILURE AT MAPLETON BOOSTER STATION AFFECTS OPERATIONS

On 28 September 2024, at 13h30, Rand Water's Mapleton Booster Station experienced a complete power failure. The station is supplied by the City of Ekurhuleni (CoE). Technicians are currently investigating the cause of the outage and the estimated time for power restoration remains unknown.

As a result of this incident, the following Rand Water reservoirs might run low: Brakpan, Vlakfontein, Bronberg, Wildebeesfontein, Selcourt and Stompiesfontein.

Some areas supplied by these reservoirs may experience low water pressure.

Rand Water apologises for any inconvenience caused and will provide updates as new information becomes available.
