MEDIA STATEMENT

RAND WATER TO IMPLEMENT PLANNED MAINTENANCE OF ITS H26 PIPELINE METERS

Rand Water will implement a scheduled 12-hour planned maintenance of its Savannah Estate and Hatherly meters; to allow for the tie-ins to the newly laid H47 Pipeline.

The Savannah Estate and Hatherly meters receive water from the H26 Pipeline, which runs from the Rietvlei Nature Reserve to a meter located in Mamelodi.

The following areas in the City of Tshwane Metropolitan Municipality will be affected during this period:

- Nellmapius Ext 22
- Savanah Estate
- Hatherley

The planned maintenance project will commence on Thursday, 23 March at 17h00 and will end on Friday, 24 March 2023 at 05h00.

Rand Water has formally informed the municipality of the planned maintenance work so the municipality could fill its reservoirs and implement appropriate contingency plans. Thus, the municipality will advise consumers on the extent of the impact of water supply shortages in their respective areas.

Rand Water would like to apologise for any inconvenience that may be caused by the scheduled planned maintenance.
